HackTheBox – Cartographer Write Up

Tools: N/A

Walkthrough:

Step	Description
1	At the homepage of Cartographer "http://docker.hackthebox.eu:(Port number)", SQL injection techniques such as Username= '-- and password=' was used.  Figure 1: Cartographer Homepage.
2	The result of the SQL injection technique led to another page. Figure 2: Cartographer page.
3	After trying to map the site with dirby tool, it returned 0 results. The hackthebox forums provided a hint to obtain the flag.
4	The flag was obtained through manipulating the url from home to "f***" "http://docker.hackthebox.eu:(Port Number)/panel.php?info=f***"

Flag is HTB{Please find the flag yourself ☺}
